

# Teacher Work Sampling in Oregon

## CD 2

This CD contains several examples of teacher work samples.

The examples are provided in two segments:

**First**, is a work sample developed by a candidate during his student teaching. Though the work is not always exemplary in every component, the example does provide readers with an overview of what a teacher work sample looks like.

**Second**, examples of work sample components we thought were intriguing and/or came close to being exemplary work.

Each of the examples is drawn from work samples completed during a candidate's student teaching experience. We did not edit the work samples for spelling, punctuation, grammar, or structure.

We gratefully acknowledge the following teacher candidates whose work samples are featured here:

Tracy Fischer and Joshua Mitchell of Concordia University; Belinda Harland and Kathryn Nalepa of Oregon State University; and Travis Dick, Chantel Mitzel and Virginia Reeves of Willamette University.

The examples provided in this CD may be copied and distributed. The students who prepared these examples were paid by the project for the reader's right to use them for any educational purpose.
