live-learn residence hall
at western oregon university

One of the most environmentally sustainable residence halls in the nation!
University Housing set it’s sights high in planning for a LEED (Leadership in Energy and Environmental Design) platinum building when the Ackerman Hall project was first conceived.

Benefits of LEED platinum certification include:
- Safeguarding water and water efficiency
- Energy efficiency and renewable energy
- Conservation of materials and resources
- Indoor environmental quality
- Reduction of the impact of natural resource consumption
- Reduction of operating costs
- Enhancement of occupant comfort and health
- Improvement of the quality of the educational experience for occupants

Enhanced housing opportunity for WOU students
The demand for on-campus housing at WOU continues to grow. Some reasons why include:
- increase in student enrollment
- increased student retention
- growing demand by continuing students to live on campus
- complement to other campus housing options

Designed for student success
- classrooms in the residence halls to support stronger academic connection
- open spaces to encourage student interaction
- wi-fi to support campus-wide computer access
- close proximity to center of campus, including student center, classes and food services
