

Table of Contents – ES458/558 River Environments of Oregon

Introduction to Landscape Analysis	p. 1-9
Fluvial Geomorphology Notes	p. 10-28
Watershed Figures	p. 29-34
River Equations and Hydrology Diagrams	p. 35-52
Field Hydrology Procedures	p. 53-74
Paleoflood Hydrology	p. 75-79
Stream Classification	p. 80-89
Landforms: Floodplains-Terraces-Fans-Pediments	p. 90-97
River Incision, Erosion, and Knickpoints	p. 98-101
Soil Basics	p. 102-110
Mass Wasting Basics	p. 111-115
Surficial Mapping Methodology	p. 116-122
Unit Conversion Tables, Mathematic Reference Tables	p. 123-130
<hr/>	
PNW Regional Physiographic, Climate and Vegetation Maps	p. 131-132B
Road Map of Field Trip Route	p. 133
Oregon Regional Tectonic Maps, Stratigraphy, and Time Scale	p. 133B-133F
Geologic Maps of Field Stops	p. 134-140
Newberry Figures and Tables	p. 141-149
Topo and Soil Maps of Select Field Stops	p. 150-184
Regional Flood Geography Figures	p. 185-188
Field Exercises and Review Questions	p. 189-216
Reading Questions (Day 1 and 2)	p. 191-194
Surficial Mapping Exercise (Day 1-6)	p. 195-196
Stream Ordering Exercise (Day2)	p. 197-200
Intro Hydrology Problem Set (Day 3)	p. 201-202
River Concepts (Day1-2)	p. 203-204
Field Exercise: Lower Paulina Creek (Day 2)	p. 205-208
Field Exercise: Whiskey Dick (Day 5)	p. 209-210
Field Exercise: Buckskin Mary (Day 6)	p. 211-212
Field Exercise: Petersburg, Oregon (Day 3)	p. 213-216
Deshutes River – Applied Hydrology (Day 4)	p. 217-222
Geologic Timeline Exercise (Day 1-6)	p. 223-230C
Addendum 1: Figures from O'Connor and Grant, 2003	p. 231-257
Addendum 2: Missoula Flood Figures (O'Connor et al)	p. 258-267
Keyword Index	p. 268
Blank Pages for Field Notes	p. 269-276
