Call the National Ground Water Information Center.

The National Ground Water Information Center (NGWIC) is essential for anyone involved in the science and technology of ground water supply and protection.

NGWIC is staffed with information professionals skilled at retrieving the data its clients need . . . when they need it, cost-effectively.

The NGWIC is a comprehensive fee-based information service of the Ground Water Publishing Company. The Center has been serving ground water information needs since 1960.

Enter either table at the left with the given unit: move right to the column of the unit to be derived; read the conversion factor as a multiplier.
Example: to convert 2.1 ft/day (hydraulic conductivity) to cm/s: 2.1 ft/day × 3.53E-4 = 7.4E-4 cm/s.
Conversion factors are given in FORTRAN/BASIC notation; thus 3.53E-4 = 3.53 × 10⁻⁴.

Notes: (1) The "E" notation indicates exponentiation: 2.540E-2 = 2.540 · 10⁻². (2) Unless otherwise noted, all gallons are U.S. gallons. (3) The darcy is a unit of permeability (L²), not of hydraulic conductivity (L/T). (4) A Newton (force) = kg · m/s²; A Pascal (pressure) = kg / m · s²; Joule (energy) = kg · m²/s²; each is a unit in SI. (5) Under "Temperature," entries are formulae, not multipliers.

FORMULAS

Composition of Forces

The resultant of two forces acting at an angle upon a given point is equal to the diagonal of a parallelogram of which the two force vectors are sides. The equilibrant equals the magnitude of the resultant, but acts in the opposite direction.

Accelerated Motion

$v = at$, or $v = gt$
 v is final velocity; a is acceleration, or g is acceleration due to gravity; t is time

Accelerated Motion

$s = \frac{1}{2}at^2$ or $s = \frac{1}{2}gt^2$
 s is total distance; a is acceleration, or g is acceleration due to gravity; t is time

Accelerated Motion

$v = \sqrt{2as}$, or $v = \sqrt{2gs}$
 v is final velocity; a is acceleration, or g is acceleration due to gravity; s is total distance

Newton's Second Law of Motion

$F = ma$
 F is force; m is mass; a is acceleration

Impulse and Momentum

$Ft = mv$
 F is force; t is time; the product Ft is impulse; m is mass; v is velocity; the product mv is momentum

Centrifugal Force

Centrifugal Force = $\frac{mv^2}{r}$
 m is mass; v is velocity; r is radius of path

Work

$W = Fs$
 W is work; F is force; s is distance

Potential Energy

P.E. = mgh

P.E. is potential energy; m is mass; g is acceleration due to gravity; h is vertical distance

Kinetic Energy

K.E. = $\frac{1}{2}mv^2$

K.E. is kinetic energy; m is mass; v is velocity

GET AN ASSOCIATE DEGREE THROUGH THE COMMUNITY COLLEGE OF THE AIR FORCE. You can go to college while in the Air Force drawing full salary and benefits. It's the nation's first military-operated education institution empowered to grant enlisted members a two-year Associate in Applied Science Degree. The college awards the degree in more than 80 technical specialties. There is no registration fee, and the college provides a worldwide transcript service to record the member's various civilian and military course completions.

THE AIR FORCE RESERVE is also available to the individual who wants to serve on a part time basis. The Reserve offers many training opportunities as well as an excellent weekend salary. You meet one weekend a month and complete two weeks of annual training each year. It's one of the finest part time jobs in America. Your nearest Air Force Reserve unit can furnish you with information.

AIR FORCE ROTC COLLEGE SCHOLARSHIPS are available to qualified high school seniors. Applications for scholarships must be in by December 15 of your senior year. Your high school counselor has the details.
THE AIR FORCE JUNIOR ROTC PROGRAM, which is available in many high schools, normally begins with the sophomore year. The program offers a wide range of aviation subjects, including modern aircraft, space operations, principles of flight, propulsion, and navigation. It's a great program for high school students. See your high school counselor for details.

THE AIR FORCE ACADEMY is one of the nation's finest colleges, and is another fine Air Force opportunity. Each year, the Air Force offers highly qualified high school seniors an opportunity to compete for an appointment to the Academy. Applications should be in by January 31 of your junior year. Your high school counselor also has details about this program. Or, you may write to the USAF Academy, Colorado Springs, CO. 80840

CONSIDER THE AIR FORCE when you consider your future. It offers you some of the finest technical training in the nation, educational opportunities that are hard to beat, and a good salary. Check it out now. You can sign up in the Delayed Enlistment Program 270 days before you graduate. You'll be glad you did.
 For more information or the location of your nearest recruiter, call toll free 800-447-4700 (in Illinois call 800-322-4400)

GEOMETRIC FORMULAS

Right Triangle

● Triangles

Pythagorean Theorem $a^2 + b^2 = c^2$

Any Triangle

Area $A = \frac{1}{2}bh$

● Circles

Area $A = \pi r^2$

Circumference $C = 2\pi r$

● Cylinders

Surface Area $S = 2\pi r^2 + 2\pi rh$

Volume $V = \pi r^2 h$

● Cones

Surface Area $S = \pi r^2 + \pi r\sqrt{r^2 + h^2}$

Volume $V = \frac{1}{3}\pi r^2 h$

● Spheres

Surface Area $S = 4\pi r^2$

Volume $V = \frac{4}{3}\pi r^3$
