Math 213, Exam ONE Review

Exam ONE is an in-class exam given on Tuesday, April 20, 2010

- For Exam ONE you should study your assigned homework, the examples in our textbook and the class activities we have done in class for §9.1, §9.2, §9.3
- Exam One is a mix of multiple choice and short answer questions.
- You may use your calculator and your personal manipulative kit during the exam.
- You may not use a cell phone or any other non-academic electronic device during the exam.
- You may use one side of one 3" x 5" card of notes on this exam (15 in²)

CONCEPTS TO KNOW
- Chapter 9 Review Items: page 646: # 2, 3, 4

REVIEW PROBLEMS
- Practice problems: Chapter Nine Test, pages 647 & 648: # 1 – 11, 17

I will feel free to draw from all assigned homework & class activities! Pay particular attention to:
- §9.2 Sketch Polygons Activity
- §9.3 Paint & Cube Activity
- The concepts covered in the §9.1 and §9.2 GSP assignments

Study Ideas
- Work problems from the text and the activity book; don’t just read over already done work. The more problems you can work, the more confident you will be during the exam.
- Work with a study group, discuss ideas.

Your exam will cover all assigned homework & class activities! Just studying the Chapter Test questions will not be a sufficient review for Exam One!
