

Homework: due November 30/December 1 (your class day)

Name: _____

On the diagram, write the names of the seven major plates...one appears twice, due to the spherical nature of Earth.

On the diagram, use symbols to show if the plate boundary is convergent or divergent. Use heavier lines for divergent ones, and zig-zag pattern for convergent ones. Do not indicate transform boundaries, but draw arrows showing how the plates are moving together or apart at the convergent or divergent boundaries you indicated.

For the diagram at the bottom of the page, write the name of the features indicated by the letter on the lines below. Include a brief description of the feature you have named, including its shape, size, relationship to surrounding rock.

- a. _____
- b. _____
- c. _____
- d. _____
- e. _____
