

Math 394 Article Assignment Page Spring Term 2012

I. Write a paper

Write and type a 1 - 2 page review of your article that addresses the following questions:

Questions

1. For you, what were the compelling ideas of the article (give at least three)? Why were they so interesting?
2. Briefly describe three simple activities, based on the ideas from this article, that you could do with students in your classroom. For each activity, describe what concept the students would be learning from the activity.

Format

- Font 12
- Line spacing 1.5 lines (under the Format>Paragraph menu)
- 1 inch margins on all sides

II. Present to the Class

On your "due date", be prepared to discuss:

1. A brief overview of your article
2. The two most compelling aspects of your article
