

Academic Excellence Showcase Extra Credit

On Thursday May 28, 2009, WOU will be having its annual Academic Excellence Showcase. You can receive extra credit in MTH 251 if you do each of the following:

1. Attend (at least) one talk during the mathematics session.
2. Return the signed red card handed out before the talk.
3. Write a one paragraph summary (1/2-page) of what the talk was about and what you learned. Don't forget to include the title of the talk.

The extra credit you will receive will be 5 points on a test or 5 points on your homework average, whichever benefits your grade more. The schedule for the talks will come out soon. When it does, I will give you recommendations for which talks are most appropriate (and interesting) for you.
